**2019 NOVEL CORONAVIRUS**
*(2019-nCoV)*

An estimated **80%** of ALL infections are transmitted by hands

CDC, 2014*

Hand washing can reduce the risk of respiratory infections by **21%**

NIH, 2008*

**97%** of people don’t wash their hands adequately

USDA, 2018*

---

Wash hands frequently with soap and water or use alcohol-based hand sanitizer.

WHO, 2020*

Avoid close contact with anyone with cold or flu-like symptoms.

WHO, 2020*

Consult with local health authorities on all necessary procedures and up-to-date information.

---

Reduce your risk of coronavirus infection:

- Clean hands with soap and water or alcohol-based hand rub
- Cover nose and mouth when coughing and sneezing with tissue or flexed elbow
- Avoid close contact with anyone with cold or flu-like symptoms
- Thoroughly cook meat and eggs
- No unprotected contact with live wild or farm animals

---

MINIMIZE THE RISK

- Follow all public health recommendations and guidelines
- Wash hands frequently with soap and water
- Use an alcohol-based hand rub
- Clean and disinfect surfaces and high-touch objects with approved disinfectants
- Ensure availability and proper training of personal protective equipment (PPE)
- Minimize close contact with persons who have symptoms of respiratory illness

---

To learn more about Ecolab’s offerings for disinfectants and hand sanitizers, contact your local sales and service representative.
